# IAM Verified in MetaVerse

**A Reliable Identity and Access  
Management System**

Decentralized | Transparent | Autonomous

# Why IAmVerified?

The decentralized economy has taken humanity by storm today. Web 3.0 and Metaverse are being called the next big thing and will likely be changing the face of technology as we have known it. Retail, gaming, work, or immersive education; there is not one industry that has not jumped on board and is ready to transform its operations forever!

This brings us to what we offer -> **Meta-Security**: Cybersecurity in the Metaverse!

**2/3 OF BUSINESSES** in the developed world experience a cyber breach at least once in the past year

**At least 11 MILLION** fraud and cyber crimes were committed last year worldwide

**The United States is currently the MOST TARGETED NATION** in the world for phishing attacks, and 2nd for ransomware

**There has been a 41% INCREASE** in ransomware attacks such as MonkeyGrab, which is the fastest growing threat as well

**2020 saw a RECORD 210 MILLION** data breaches

**“Insider Threats” by current or ex-employees contribute to nearly 43% OF ALL DATA BREACHES** worldwide

# Identity & Access Management - IAM

## IAMVerified is pioneering an Identity Management Solution for Metaverse

There is currently a huge investment being dedicated to building on-chain decentralized solutions for the future. A very interesting point to note is that all these solutions will need a **verified, reliable, and decentralized** identity management solution(IAM).

If Identity is not decentralized and autonomous then the whole point of building decentralized solutions is compromised. **At IAMVerified we are building a decentralized IAM system** based on smart contracts, that is able to provide a platform for you to manage your own Identity. A so-called **Self-Sovereign Identity** where you control your information and no one issues revokes or even views your information.

Our innovative ground-breaking technology helps you **maintain anonymity when you wish to, prove only the credentials that you want to show, and you have the right to be forgotten!**

We believe Identity belongs to you and you can use (or not use) it as you will and wish. No government needs to register your birth or your offspring so they can track your lifetime!

### Cybercrime incidents(including Identity theft) in 2021 at SMBs across North America

This chart depicts how businesses had their network breached in 2021. Mobile devices presented the most popular entry point.

# \$IAM Token

## \$IAM is IAmVerified Cryptocurrency

\$IAM has been floated in the market in order to fund the IAmVerified project. We are a small team of technology enthusiasts and we have to compete against governments and large corporates that love to keep your identity centralized and profiteer from it. Hence, we need your trust and support!

\$IAM token and every penny you put into this will be utilized for the purpose of freeing your identity from corporates and giving it back to its rightful owner, which is YOU!

\$IAM maintains a liquidity pool by using 3% of every transaction and 7% of the transaction fee and will be given to \$IAM holders as rewards.

Your \$IAM will be used to fund your Identity artifacts - which we like to call **NFTID**.

At \$IAM We will not compromise on the quality and freedom of our users, we will not sell your information to add campaigns or governments for that matter.

# The Nitty Gritty

## How \$IAM ensures your Privacy

- At IAmVerified we enable you to store all Identity information in your own wallet.
- IAmVerified provides a level of abstraction so your details are not visible on any blockchain scan.
- **No human interaction** with your actual identity documents they are also not stored on any centralized systems. We are truly a DAO!
- IAmVerified has a unique mechanism where physical identity is identity by our smart contracts and **NFTID** is issued.
- **NFTID** is based on smart NFT technology so it updates its own status when your physical ID is updated.
- You can use **NFTID** cross-chain, on all blockchains, realms, games, planets and metaverses.

Total Supply : 100 T

3% Txn Fee LP

**IAMVERIFIED**

# ABOUT US

**Passionate | Committed | Innovative**

We are extremely proud to be a Decentralised Autonomous Organisation (DAO) working with autonomous smart contracts and transparency.

We are passionate about bringing Identity and Access Management solutions on-chain! We provide verified and reliable IAM while maintaining your anonymity so you are secure in the Metaverse.

**NFTID** is our ingenious solution that forms a much-required linkage between the physical world and the MetaPhysical. We utilize Non-Fungible Tokens(NFT) and the blockchain to provide your unique footprint to anyone YOU desire.
